IBM Cloud services

The screenshot shows the IBM Cloud dashboard at cloud.ibm.com. The top navigation bar includes a search bar and links to Catalog, Manage, and the user profile (Selvanayagi Selvanaya...). The left sidebar contains a menu with options like Account, Cloud Foundry orgs, Licenses and entitlements, Tags, Dashboards, Account settings, IBM Cloud Shell settings, Notification distribution list, Classic infrastructure, Subscriptions, Audit log, and Company information. The main content area is divided into several sections: 'User access' with a form to enter up to 100 email addresses and an 'Invite' button; 'News' with articles about Unified Key Orchestrator, TrustRadius, and IBM Cloud Pak; 'Planned maintenance' with a link to view scheduled events; 'IBM Cloud status' with a world map visualization; and 'Recent support cases' with a link to view all cases. The bottom of the dashboard shows a taskbar with open PDF files (MIT App Inventor, fast2sms.pdf, Software.pdf) and a system tray with weather (26°C Haze) and date (05-11-2022) information.

The screenshot shows the 'Account settings' page in the IBM Cloud dashboard. The left sidebar is the same as the previous screenshot, with 'Account settings' highlighted. The main content area displays account information: 'Account' (Selvanayagi Selvanayagi's Account, ID: 7db22ccadef041cca381f9f6d92a199d), 'Account Type' (Trial (Free), 394 days remaining in Trial), and 'Account upgrade' options. The 'Account upgrade' section includes 'Pay-As-You-Go' (Add your credit card to unlock the full power of IBM Cloud with a Pay-As-You-Go account. You'll still be eligible for free runtime and service allowances, and you'll be charged only for paid services that you use. [Learn more](#)) and 'Subscription' (Get discounted pricing and increased billing predictability when you commit to a set amount of usage over time. [Learn more](#)). There is an 'Upgrade' button and a 'Need help? [Contact sales](#)' link. The bottom of the dashboard shows the same taskbar and system tray as the previous screenshot.
